POLES TAKE KIEFF AFTER THREE DAYS

Their Army Enters the City on Heels of Retreating Bolsheviks.

LITTLE FIGHTING AT END

But Defenders Made Desperate Resistance Before Quitting Outskirts.

By the Associated Press.

WARSAW, May 9.—Polish cavalry entered the city of Kieff Saturday morning, on the heels of the retreating Bolsheviks.

The city has been evacuated by the Bolsheviks. The Polish infantry kept up its advance toward Kieff during the day, cavalry detachments keeping contact with the infantry forces. The city was entered by the cavalrymen from the west, after an advance through the Ukraine lasting twelve days.

There was little fighting, according to reports reaching Polish headquarters in Warsaw, the cavalry going into the city all day as the infantry advanced in a great semicircle. A few machine gun shots were fired in the early morning as the cavalry appeared, but this fire was quickly silenced, and reports say that the evacuation of Kieff began soon afterward, or as soon as the advancing troops appeared in force.

Fighting Across Rivers.

The fiercest fighting engaged in by the Poles before they reached the outskirts of Kieff was along the Irpen River, just west of the city. The Bolsheviks, well entrenched, defended the strip between the Irpen and the Dnieper until they were literally blasted from their positions.

The Poles first crossed the Irpen northwest of Kieff, near its junction with the Dnieper, after a three day fight before the city's gates. Soon after the passage of the river was effected in force at various points over emergency bridges, some of which were built under the fire of the Bolshevik machine guns. The Malin-Kieff railroad bridge across the Irpen was destroyed by the retreating enemy, but is being repaired by soldiers, aided by the local population.

For two days the struggle was for the most part an infantry battle. By the end of that time, however, the retreating defenders had recovered sufficiently from their confusion to bring up artillery and put it into play. Meanwhile, the Poles also had brought up guns, but the progress of the artillery to the battle front was much hampered by the rough country, the dynamited highways and bridges and various obstacles placed by the Bolsheviks to handicap the advancing Poles.

Reds Gradually Fall Back.

It was early on Friday that the Soviet troops began gradually to give way before the Polish cannon fire on all sides. The defenders fell back upon Kieff, where the only available crossing of the Dnieper was to be found. Modern armored trains from the south on the Polish side aided the infantry in their fight for the ancient Russian capital, but the advance along the railroad from Fastova was made under the greatest difficulties because of the railroad being under fire from the Bolshevik guns in their positions along the chain of hills encircling Kieff.

Armored trains were brought up by way of Malin also, and these will move into Kieff as soon as the bridge over the Irpen is repaired and will stand by with reinforcements to be sent into the city in preparation for holding Kieff against counter attacks.

An offensive was begun to the north in Polesia, the military commanders having decided that an attack was necessary to offset the Bolshevik concentration in the region beyond Mstir. The first day's fighting resulted in the capture of Cholmek, east of Mstir, and the railroad town of Wladimir, north-east of Mstir. Much material, the statement adds, was taken by the Poles.

London, May 9.—A Bolshevik communication says that in the Kieff region,

Rumania Seeks Polish Alliance Against Russia

COPENHAGEN, May 8.—The Politiken publishes a report from Budapest that feverish military preparations are proceeding in Rumania. Berlin newspapers say that the Rumanian Premier has gone to Warsaw to negotiate with Gen. Plonski, the head of the Polish State, for an alliance against Russia.

after fighting rear guard engagements near a crossing of the Dnieper, the Bolshevik troops are concentrating on the left bank.

ENVOYS OF LEAGUE BARRED BY SOVIETS

Poland and Ukraine Cannot Send Delegates.

LONDON, May 8.—The Central Soviet, a Moscow wireless message says, announces that, in view of the fact that certain members of the League of Nations are actively supporting Poland and Ukraine, warring on Russia, it cannot by reason of military considerations admit into Russia any delegation which includes representatives of those nations, although the Soviet supports the principle of the league's decision to send an investigating delegation into Russia. The statement complains that the league has failed to protect against Poland's action, declares that the Soviet is ready to admit all newspaper representatives giving guarantees that they will not abuse the hospitality of the Russian people, and will assist facilities to the British trade union delegation as guests of the Russian trade unions.

It concludes by stating that a committee has been appointed comprising Comrades Kamenetz, Litvinoff and Mursky, who, jointly with Tchitcherina, the Foreign Minister, are authorized to admit at the proper time the League of Nations delegation without involving a meeting of the All-Russian Central Executive Committee.

London, May 8.—The Foreign Office has withdrawn its objection to granting passports for Delegates Quench and McLaine, named by the British Socialist party to visit Russia. Therefore, the delegates will start at the earliest possible date for an investigation of Russian conditions.

GERMAN SOCIALISTS PLAN SOVIET RALLY

To Hold Demonstration for Russian Reds To-morrow.

BERLIN, May 8.—The Independent Socialists are planning to hold a great demonstration on Tuesday in favor of Soviet Russia. In a manifesto printed in the party organ, Die Freiheit, it is declared that all signs point to the intention of the allied Powers again to draw a circle around Soviet Russia. "The forces for the attack are to be increased," adds the newspaper, "where the delegate will start at the earliest possible date for an investigation of Russian conditions."

London, May 8.—The reports that Hungary is setting herself against acceptance of the peace treaty have been confirmed in Rome by Gen. Hercegov. Hungarian Council of State. An Exchange Telegraph dispatch from Rome quotes the Council as declaring that Hungary will not sign the treaty without modifications, including provisions for the holding of plebiscites in disputed territory.

BOLSHEVIKI MAKE PEACE WITH GEORGIA

Recognize Independence of Republic and Define Her Boundaries.

WOULD GIVE HER BATUM

Black Sea Outlet Ceded and Opponents of Soviet to Be Surrendered.

LONDON, May 9.—A peace treaty has been concluded between Soviet Russia and the Republic of Georgia, according to a wireless message from Moscow. The treaty provides that Russia shall recognize the independence of Georgia and undertake not to interfere in Georgia's internal affairs.

That republic shall comprise the following territory: The Tiflis, Kutais and Batum governments and also the districts of Zakatali and Sukhum and a portion of the Black Sea governments. Georgia is to disarm all its military forces, groups and persons hostile to the Soviet Government and intern them in concentration camps, to be handed over subsequently to Soviet Russia, whose Government undertakes to spare their lives. All their military supplies, valuables and funds, however, will be confiscated without compensation.

Georgia undertakes to relieve from punishment and from further prosecution all those at the present time under prosecution for acts committed in favor of Soviet Russia.

SEES NEW BURDEN ON GERMAN LABOR

"Vorwarts" Comments on General Electric Financing.

BERLIN, May 8.—Commenting on the announcement that a prominent group of American financiers had purchased a 25,000,000 mark block of new shares of the German Electric Company, the newspaper Vorwarts points out that as the payment for the shares is to be in dollars it is plain that the General Electric Company desires to pay for its American raw materials with shares. "The Americans," continues Vorwarts, "evidently do not desire German paper put General Electric products, and are taking previous dividend bearing shares instead. Thus the German workers are permanently made to pay tribute to foreign capital, for it is their labor that earns the dividends."

"If the General Electric Company's raw materials had been obtained by exchange against German polish and other wares we would have been spared this liability."

The identity of the American group has not been divulged by President Rathenau, although it is taken for granted here that the American General Electric is the purchaser. The Associated Press is informed that the names of the American buyers will not be announced for the present, as further details in other directions are contemplated.

SHOTS FAIL TO KILL TURKS' GRAND VIZIER

Bomb Also Misses Egyptian Minister of Works.

By the Associated Press. CONSTANTINOPLE, May 8 (delayed).—An attempt was made last night upon the life of Ibrahim Ferid Pasha, the Grand Vizier, at his home. Three shots were fired at him, none of which, however, took effect.

Cairo, May 8.—A bomb was thrown at Hussein Darwish, the minister of Works, as he was motoring homeward from his office Saturday evening. The bomb struck the gasoline tank of the motor car, slightly injuring the chauffeur.

JAPS AND RUSSIANS PLAN BUFFER STATE

Prelude to Evacuation of Vladivostok Region.

Special Cable Dispatch to The Sun. NEW YORK Herald, Copyright, 1920, by The Sun and New York Herald. TOKYO, May 9.—Minister Uchida announced at a session of the Japanese Cabinet that negotiations were proceeding at Vladivostok between the commander of the Japanese military forces and representatives of the Soviet Government of Russia for the establishment of a buffer State as a prelude to the evacuation of the city and district by the Japanese army.

Mr. Uchida announced that in appreciation of the Japanese position the Russian Government was willing to do its utmost to guarantee the safety of Japanese residents and the protection of their property, which is essential to evacuation.

Vladivostok, May 8.—The Provisional Government has announced that elections will be held soon for a Far Eastern Provincial Parliament. The declaration calls for the development of the national resources and industries with Russian and foreign capital and maximum freedom for Russian and foreign enterprise. The Government is organizing an international board of trade, consisting of Russian, Chinese, American and Japanese business men.

There is a marked shortage in foodstuffs in the maritime districts contiguous to Manchuria.
